

FUZZY'S TACO SHOP
TENANT FINISH | WICHITA, KS

You can't miss Fuzzy's Taco Shop bright yellow building and signage when you drive by. That's by design and so is everything inside as well. When you walk in, you immediately understand this is a different kind of quick-service restaurant with a full service bar, frozen drinks and a giant shark and it is the largest Fuzzy's Taco in the Nation at just over 8,000 sq ft. Three demised tenant spaces were converted to make the large space. The main restaurant is approximately 5400 sq. ft. and in back there is a 2600 sq. ft. banquet room.

As with any restaurant there are many features that you must account for such as kitchen prep areas, grill stoves and Ansul system, refrigeration units and drink stations to name a few. But with Fuzzy's they were more open to aesthetics being not-standard, in fact they wanted a unique one-of-a-kind experience. This gave Ink the opportunity to influence the overall look and feel of the restaurant.

Ink incorporated many custom details and features including inlaid wood walls and decoration, custom metal cabinet doors, surfaces, railings and more.

Display case features a metal version of the Wichita flag.

Custom built liquor stands

Inlaid wood detail

All the customized elements help give the restaurant a unique and more localized feel. Many of the unique interior features utilize reclaimed wood from palettes and other construction elements. The bar liquor stands are brushed metal with inside lights and glass tops that make the bottles glow. The lights can be programmed to change colors.

The staging area for ordering incorporated a wood block wall with a hand carved chili pepper, metal railings and a display cabinet with a metal grate version of the Wichita flag and many of Interior walls feature custom wood designs.

The counter in front of the serving window has swirled metal surface and if you look closely on the drink station wall you will see the Fuzzy's Shark logo.

Custom wood wall treatment
